PRICES MOVED **IRREGULARLY**

Speculation Was Active in Only a Few Stocks.

EXCITED OPENING IN C. & O.

The First Transaction Carried That Stock Up Nearly Two Points, Which Proved to Be the Highest for the Day-Bonds Dealt in on Large Scale.

(By Associated Prest.)

NEW YORK, March 9.—There was a very irregular price movement during to-day's short session on the Stock Exchange. Speculation was active in only a few stocks and the contrary movement in these had the effect of confusing sentiment of the room traders. The published rumors that Pennsylvania will lease Chesapeake and Ohio for 309 years with a guaranteed dividend of 3 per cent, per annum caused an excited opening in that stock, the first transactions of \$599 shares carrying the price of 15-8 over last night. This proved to be the highest price of the day, as the recent large advance in the stock offered handsome profits for large speculative holdings.

Amalgamated copper scored a violent recovery from yesterday's weakness, using more than three points over last night's price in the first two minutes of the trading. This also proced to be the highest price of the session. A number

of low priced railread stocks were advanced in concert, including the Watersh stocks, Chicago Great Western, St. Leuis and San Francisco stocks, Hocking Valley and Peoria and Eastern. There was realizing going on in other parts of the list and the tone of the market had turned heavy all around before the bank statement appeared.

Prices of some of the principal active railroad stocks were forced nearly a point under last night. Sugar fell an extreme 2-8 upon the announcement of the death in Paris of an official of the company.

The bank statement had evidently been discounted and the shorts bid up prices on themselves in their efforts to take profits. The closing was irregular on renewed realizing in some stocks at the advance. The loss in cash reserves by the

The State Mineralogist Says: If the future realizes what may be fair and reasonable to expect from present existing conditions, the value of the mammoth petroleum output will, in a short time, surpass all

other productions in the state. WORTH \$10,000,000. Los Angeles Herald, Feb. 28, says: It is conservatively estimated that section No. 29, Kern River, is easily worth \$10,000,000. The present producting wells can and will pay a good rate of interest upon that amount. Only about one-half of the section is developed.

That's why subscriptions flood our offices daily.

Isn't the other half just as valuable? The Eastern Star owns a valuable acreage right in the very heart of section 29, Kern River. That's why our proposition is such an appealing one.

There is no proposition now upon the market which offers or can offer so good or so safe an investment as the Eastern Star Oil Co. Oil is a constantly growing necessity for fuel. The trade here was disposed to disregard the Neili statement, but was obliged to recognize in the Liverpool advance a potent bull influence. Trading was active throughout the forenoon with the south a seller after the call. The March position was heavy at times under fall offers and indifferent demand. Receipts were considerably in excess of general anticipations and operated as an opposing influence. Southern spot matrices were described as hardening on increased domestic and consumptive demand. The New Orleans market broke sharply after opening up several points on a scare of shorts.

Vote of Thanks. At the monthly meeting of the board of managers of the Home for Needy Confederate Women, the secretary was instructed to return a vote of thanks to Prof. Charles Pierson and his most excellent class for the beautiful play of "David Garrick," given at the Academy; also to Prof. Kahn for his piano playing; to Manager Leath and the city press; also to Messrs. Beverly and Gayle and Jno. T. West for printing.

to Messrs. Beverly and Gayle and Jno. T. West for printins.

A "Southern Tea" was given at the residence of Mrs. Jas. A. Scott, in Lynchburg, for the benefit of the Home for Needy Confederate Women, and a handsome sum was realized, which was sent by check to the president, Mrs. Nelson Powell. It was given under the auspices of Kirkwood Otey, U. D. C., who pledge their earnest support to this most worthy cause. The secretary is in receipt of many offers of assistance from not only the Daughters, but many benevolent societies, which proves how dear to the the Daughters, but many benevoient so-cieties, which proves how dear to the people of the South are all the memories of the "Lost Cause." Let other chapters emulate the example of the noble chap-ter of "Kirkwood Otey," of Lynchburg.

COTTON MARKETS.

NEW YORK, March 9.—The cotton market opened irregular and somewhat excited with prices up 2 to 11 points on feverish covering foreign buying and fair investment support, and was extremely nervous all the short session. There were frequent violent changes in the course of the market, the chief turn coming right after the opening when cotton purchased last night was unleaded for profits in fear of a relapse.
